## Technical Data Sheet

# SCOOTER 5W/30

4T synthetic motor oil

### Description

SCOOTER 5W30 is a new generation motor oil developed on high quality synthetic base.

### Use / application

SCOOTER 5W30 is a product made with high quality synthetic bases, with a specific formulation for use on 4-stroke scooter engines. SCOOTER 5W30 keeps the engine and spark plugs clean ensuring maximum performance in the short but also in the medium-long term. SCOOTER 5W30 protects the engine from wear, extending the life of the moving parts even at high rotation speeds. The use of noble synthetic bases for the product formulation, grant a series of advantages, such as resistance to high temperatures, optimal viscosity even at low temperatures for a cold start, low sensitivity to different environmental and use conditions, minimum volatility and therefore a significant reduction in top-ups between one service coupon and the next.

### Properties

- viscosity and high-level performances that are stable over time
- perfect protection of the engine from wear and corrosion
- optimal starting and lubrication at high and low temperatures

### Specifications

API SN

JASO MB

### Technical Data

SAE Viscosity grades			5W/30
Density at 15°C	ASTM D4052	g/cm <sup>3</sup>	0.850
Viscosity at 40°C	ASTM D445	mm <sup>2</sup> /s	57.0
Viscosity at 100°C	ASTM D445	mm <sup>2</sup> /s	10.2
Flash point (COC)	ASTM D92	mgKOH/g	> 200

TECH00416

Ed. 06/22
